SENTHILKUMAR S

FULL STACK AI ENGINEER

+91 6385257541 | senthilson2003@gmail.com

Portfolio: myself-senthilkumar.vercel.app | **GitHub:** github.com/Senthilkumar-2003-java | **LinkedIn:** linkedin.com/in/senthilkumar280503

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in web application development, backend engineering, database management, mobile application development, cloud deployment, and AI-powered software solutions. Experienced in React.js, Node.js, Python, Django, Java, Spring Boot, Laravel, Flutter, PostgreSQL, MySQL, and MongoDB. Hands-on exposure to LLM APIs, Retrieval-Augmented Generation (RAG), document-based AI systems, local LLM development using Ollama, AWS, Render, Vercel, Git/GitHub workflows, production deployment, and Razorpay/Cashfree integrations. Focused on building scalable full-stack applications that combine modern software engineering with Generative AI capabilities.

TECHNICAL SKILLS

Programming Languages	Python, Java, JavaScript, Dart
Frontend	React.js, HTML5, CSS3, Tailwind CSS
Backend	Node.js, Django, Spring Boot, Laravel, REST API Development
AI / Generative AI	LLM APIs, RAG, Ollama, Generative AI Integration, AI Chatbots, Document-Based Question Answering, Prompt Engineering
AI Tools	ChatGPT, Claude, Gemini, Google Flow
Mobile Development	Flutter, Dart
Databases	PostgreSQL, MySQL, MongoDB, Neon PostgreSQL
Cloud & Deployment	AWS, Render, Vercel, Hostinger, GoDaddy
Payment Integration	Razorpay, Cashfree
Development Tools	Git, GitHub, Visual Studio Code, Eclipse

PROFESSIONAL EXPERIENCE

Bitbyte Technologies

Full Stack Developer | 1 Year

- Contributed to the design, development, maintenance, testing, and deployment of full-stack web applications.
- Developed frontend functionality, backend services, REST APIs, and database integrations using modern development technologies.
- Worked with React.js, Node.js, Python/Django, Java-based frameworks, PostgreSQL, MySQL, MongoDB, and Flutter.
- Worked with AWS, Render, Vercel, and managed database environments for application deployment.
- Designed and explored AI-powered application features using LLM APIs, RAG workflows, local AI models, and document-based knowledge systems.
- Contributed to chatbot architectures that connect retrieved document context with AI-generated responses.
- Integrated Razorpay and Cashfree payment workflows and used Git/GitHub for source control and collaboration.
- Participated in debugging, testing, production releases, and deployment troubleshooting.

Infisq Innovation

Full Stack Developer Intern | 3 Months

- Worked on frontend and backend development tasks for web applications.
- Assisted with API integration, database operations, and application functionality.
- Participated in debugging, testing, and end-to-end software development workflows.

RectoQ Software Solutions

Software Development Intern | 3 Months

- Contributed to web and software development activities, debugging, and functional testing.
- Worked with version-control, collaborative development, deployment, and software delivery workflows.

SELECTED PROJECTS

Dream Country Visas - AI Chatbot | *Generative AI | RAG | Ollama | LLM Integration*

- Designed an AI-powered visa assistance chatbot using Retrieval-Augmented Generation and controlled document sources.
- Explored Ollama-based local LLM workflows for retrieval, contextual processing, source-aware responses, and testing.

Super API - Visa AI Chatbot | *RAG | Ollama | Document Knowledge Base*

- Designed a document-driven AI chatbot architecture with the workflow Documents -> Retrieval -> RAG Context -> Ollama -> Answer.
- Explored source citation, local AI processing, and document-based question answering.

Athirai Gold | *Full Stack E-Commerce Application*

- Contributed to product, customer, shopping, administrative, order, backend, database, and deployment workflows.

Athirai Digital Gold | *Digital Gold Platform*

- Contributed to digital gold workflows, backend integrations, user-facing functionality, and database operations.

Athirai Hierarchy | *Business & Hierarchy Management Platform*

- Worked on organizational hierarchy workflows, frontend/backend integration, and administrative functionality.

HRMS - Human Resource Management System | *Web Application | Flutter Mobile Application*

- Worked on employee management, attendance, leave, payroll, web/mobile development, backend APIs, databases, and deployment.
- Participated in Google Play production-readiness activities for the HRMS mobile application.

Task Management Application | *Full Stack Web Application*

- Developed task creation, assignment, status management, progress tracking, backend logic, and database operations.

Sevagan Trust Management Software | *Web & Mobile Application*

- Contributed to beneficiary, donation, community initiative, administrative, backend integration, testing, and delivery workflows.

Job Search Application | *Flutter Mobile Application*

- Developed Flutter-based job discovery, job listing, search, and application-oriented functionality.

Super Market Application | *Mobile Commerce Application*

- Worked on categories, products, brands, inventory, cart, delivery slots, orders, and customer/admin application flows.

EDUCATION

Master of Computer Applications (MCA) **2024 - 2026**

Completed

Bachelor of Science in Computer Science **2021 - 2024**

B.Sc. Computer Science - Completed
